

4DM Dataset

Data Access Agreement for Users

1. Definitions

The dataset comprises 25 healthy subjects obtained from Jiangsu Province Hospital. Each subject includes multiple slices (8-10 slices) and each slice covers a sequence of the cardiac cycle consisting of 25 phases. All mesh sequences are generated by our program.

2. Confidentiality

The dataset may only be used for academic research. The dataset may not be used for any commercial purposes.

3. Distribution

The user may not distribute the dataset or portions thereof in any way, with the exception of using small portions of data for the exclusive purpose of clarifying academic publications or presentations.

4. Citation

All documents and papers that report on research that uses the 4DM dataset will acknowledge this by citing the following paper:

Xiaohan Yuan, Cong Liu and Yangang Wang. "4D Myocardium Reconstruction with Decoupled Motion and Shape Model". IEEE/CVF International Conference on Computer Vision (ICCV), 2023.
